3 Subgrantee Information

Instructions

Complete this table for all subgrantees and contractors receiving HPRP funds.

- Please complete it for all "first-tier" subgrantees only. That is, subgrantees of subgrantees or vendors hired by a subgrantee do not need to be reported on this screen.
- If a metropolitan city or urban county did not subgrant or subcontract a portion of HPRP funds, simply enter the total amount of the grant in the row labeled "Funds Retained by Grantee."
- Please note that Section I.B. of the HPRP Notice defines subgrantees as any private non-profit organization or unit of general local government to which a grantee provides funds to carry out the eligible activities under the grant and which is accountable to the grantee for the use of the funds provided. An agency of the grantee is not a separate unit of general local government to which the grantee can provide HPRP funds; rather, it is a representative of the grantee itself.

4 Combined HMIS and Comparable Database Data Quality

Instructions:

Report the number of clients served during this reporting period, as well as the number of adults served, unaccompanied youth served, and total clients leaving during the reporting period. Then report the number of clients with "Don't Know" or "Refused" recorded for each of the required HMIS data elements in the table below. Similarly, report the number of clients with missing data for each of the required data elements. Each record corresponds to one client served.

Data quality is based on the latest date of service for each client in the reporting period. The information entered in this screen should represent the quality of HMIS data, as well as data collected in a comparable database. If multiple databases are used across a grant, data should be merged for reporting purposes.

Total number of records for all clients: 854

Total number of records for Adults Only: 408

Total number of records for Unaccompanied Youth: 1

Total number of records for Leavers: 301

5a Persons Served by Household Type - Homelessness Prevention

Instructions:

Report the unduplicated count of all persons who were served in an HPRP program for homelessness prevention during the reporting period. "Served" means that the person had an HPRP program entry or exit date within the reporting period and at least one HPRP service activity (e.g., financial assistance and/or housing relocation and stabilization service).

Each person should be counted in the household type associated with his or her last "homelessness prevention" stay of the reporting period. Age should be calculated based on entry date closest to the end of the reporting period; or if persons were in the program during the previous reporting period, then age should be calculated for the first day of the reporting period.

The household types include:

a) Households without Children - include single adult persons, or adults with adult companions that have never had a child in their household.

b) Households with Children and Adults - include any household with at least one adult and one child present regardless of whether the child(ren) is present for the full program stay.

c) Households with Only Children - include any household where all persons are younger than age 18.

d) Unknown Type - If age is missing for a member of a household, it is only possible to determine the person's household type if the household already includes at least one adult and one child. Otherwise, these persons should be recorded under unknown household type.

Number of Persons in Households

	Total	Without Children	With Children and Adults	With Only Children	Unknown Household Type

5b Persons Served by Household Type - Homeless Assistance

Instructions:

Report the unduplicated count of all persons who were served in an HPRP program for homeless assistance during the reporting period. "Served" means that the person had an HPRP program entry or exit date within the reporting period and at least one HPRP service activity (e.g., financial assistance and/or housing relocation and stabilization service).

Each person should be counted in the household type associated with his or her last "homeless assistance" stay of the reporting period. Age should be calculated based on entry date closest to the end of the reporting period; or if persons were in the program during the previous reporting period, then age should be calculated for the first day of the reporting period.

The household types include:

a) Households without Children - include single adult persons, or adults with adult companions that have never had a child in their household.

b) Households with Children and Adults - include any household with at least one adult and one child present regardless of whether the child(ren) is present for the full program stay.

c) Households with Only Children - include any household where all persons are younger than age 18.

d) Unknown Type - If age is missing for a member of a household, it is only possible to determine the person's household type if the household already includes at least one adult and one child. Otherwise, these persons should be recorded under unknown household type.

6 Households Served

Instructions:

Report the unduplicated count of all households who were served in an HPRP program during the reporting period. "Served" means that the household members had an HPRP program entry or exit date within the reporting period and at least one HPRP service activity (e.g., financial assistance and/or housing relocation and stabilization service).

The type of household is determined based on the type of persons in the household, considering all program stays within the reporting period.

a) Households without Children - include single adult persons, or adults with adult companions that have never had a child in their household.

b) Households with Children and Adults - include a person in any household with at least one adult and one child present regardless of whether the child(ren) is present for the full program stay. (Rule - If ever a child in the household, always a household with children).

c) Households with Only Children - include a person in any household where all persons are younger than age 18.

d) Unknown Type - If age is missing for a member of a household, it is only possible to determine the person's household type if the household already includes at least one adult and one child. Otherwise, these persons should be recorded under unknown household type.

7 Housing Status at Entry

Instructions:

Report the number of persons in each housing status category at program entry, recorded by the type of household in which each adult was served. Report all persons served in the program during the reporting period. If a client entered a program more than once during the reporting period, the housing status at entry should be determined based on the status at the last program entry prior to the end of the reporting period.

8a Persons and Households Served with Homelessness Prevention by Service Activity

Instructions:

Report the number of persons (adults and children) and households served during the year and cumulatively since grant execution (GTD or "grant-to-date") with Homelessness Prevention (as determined by client Housing Status at HPRP program entry). Only persons who were entered in an HPRP program and received financial assistance or housing relocation and stabilization services during the reporting period should be reported in the "reporting period" columns.

Note: Persons can be counted in Homelessness Prevention, even if they also received Homeless Assistance during the year, as long as they had two or more distinct program episodes with a housing status of "literally homeless" at one entry (Homeless Assistance) and a housing status of "imminently losing housing, unstably housed, or stably housed" at another (Homelessness Prevention).

For the "reporting period" columns, the total rows should reflect the total unduplicated number of persons who received HPRP assistance during the reporting period (separately reported for Financial Assistance, Housing Relocation & Stabilization Services, and Unduplicated across both) while entered in an HPRP program, a subset of those reported in screen 5. For the "grant-to-date" columns, the total rows should reflect the total unduplicated number of persons who have received HPRP assistance since the inception of the grant through the end of reporting period associated with this APR.

15 Client Monthly Cash Income Amount - Adult Leavers

Instructions:

Report the number of adult leavers in each income category.

Income at entry - Count each adult in the row that corresponds with the amount of income each person had at the first entry of the operating year or annual assessment nearest the first day of the operating year, whichever is later.

Income at exit - Count each adult in the row that corresponds with the amount of income each person had at exit.

Less/Same/More/Unknown Income - Count each adult in the row that corresponds with the amount of income each person had at entry and in the column that corresponds to whether the person's income at exit was less, the same, or more than income at entry. Record the person in the unknown column if income at exit is missing.

Average Change - In each row, calculate the average change in income between entry and exit for the people counted in that row in the "Income at Entry" column. (e.g., report the average change ($) in income for the people who had no income at entry.) Calculate the average for all clients and report in the total row.

Leavers - The term "leaver" refers to persons who exited and were not in the program on the last day of the reporting period.

18 Length of Participation by Homelessness Prevention and Homeless Assistance (Leavers Only)

Instructions:

Report the number of persons in each participation length category, recorded separately for Homelessness Prevention and Homeless Assistance. Length of participation should be based on program entry to exit (or the end of the reporting period, whichever is first) of their most recent program enrollment, including days stayed in the program prior to the start of the reporting period.

Also report the average and median length of participation of all persons in Homelessness Prevention and all persons in Homeless Assistance.

19 Housing Status at Entry and Exit

Instructions:

This screen should only be completed for clients who exited and were not in the program on the last day of the reporting period. If a client is served more than once during the reporting period, housing status data should be based on the information collected during the last program entry and exit prior to the end of the reporting period. All leavers should be reported only once for the entire screen based on a combination of data recorded at entry and exit.

22 Significant Program Accomplishments

OPTIONAL: Please describe any significant accomplishments achieved by your program during the operating year.

Maximum Characters: 2000

23 Program Description

Describe the following elements of the HPRP program design and implementation:

Homelessness Prevention

Maximum Characters: 2000

Homeless Prevention was a bulk of our initiatives as a city. Clients were screened eligible. Clients who had children who attended the Grand Prairie Independent School District could receive up to 3 months of assistance. If they continued to need assistance they were referred to another agency within the community that would offer 3 more months partial payments. Those clients who did not have children in GPISD were eligible for up to 6 months of assistance. 3 full months and 3 months of partial payment if they still needed assistance.

Rapid Re-Housing

Maximum Characters: 2000

Rapid Re-Housing ended up not being a huge component of our program. Thus, leaving us to conclude that Grand Prairie was not a city hit hardest by homelessness. Those that were literally homeless were generally put in a temporary housing (hotel/motel voucher) until a more long term solution could be identified with an apartment complex.

Collaboration with Continuum of Care

Maximum Characters: 2000

Our continuum of care has been a great support. However, all of the agencies are at different spots with their efforts for homeless prevention and with the HMIS system. Although this would seem like a great opportunity for learning and teaching, it often left a huge gap of knowledge that could not be reconciled. Those that had experience with the system seem to have been far better off than those that who were taking on stimulus money and the system for the first time.

Collaboration with other ARRA programs

Maximum Characters: 2000

This program had little connection to other ARRA programs run in the city. Some guidance was not consistent between programs and thus we had to look at all initiatives seperately.

Barriers to and challenges with effective implementation

Maximum Characters: 2000

Our HMIS provider, Metsys, has been an ongoing issue since the beginning of this program. Being mandated to use a provider that did not have effective means of tracking data has left us spending a great deal of time, energy, and resources on creating manual reports. All of the above could have been better served helping the public.

Grantee's process for oversight and monitoring of sub-grantees/contractors

Maximum Characters: 2000

As primary grantee's we have spent countless hours with our sub-grantees to ensure compliance with regulatory guidance. There has been open communication between all subs and the primary grantee weekly if not daily. As a primary grantee who has never used the data systems being mandated and are not an entity that concentrates exclusively on homeless prevention, we feel that we have done our best to keep up with ongoing changes

24 Additional Comments

OPTIONAL: You may use this space to provide any additional comments on areas of the APR that need explanations.

Maximum Characters: 2000

Due to issues with Metsys, our HMIS provider, many sections of our report have had to be altered in order to produce a report. Thus, our report is not an adequate reflection of our outputs in Metsys. Section 5a, 5b,9a,10,11a,11b,13c, and 14 have been altered in order to submit. This was done per the request of a national HUD rep.

25 Submission Certification

HPRP Homeless Management Information System (HMIS) Data Certification

As stated in the HPRP Notice, "The Recovery Act requires HPRP grantees to report client-level data, such as the number of persons served and their demographic information, in a Homeless Management Information System (HMIS) or a comparable database." The Notice further states, "HPRP grantees and subgrantees providing financial assistance and services directly will use the HMIS in the applicable Continuum of Care to collect data and report on outputs and outcomes as required by HUD."

The purpose of this screen is to certify to HUD that grantees are compliant with the HPRP Notice. The grantee should work with the HMIS Lead to certify all information contained in this HPRP APR was generated by an HMIS or a comparable database, where appropriate.

Please complete one (and only one) of the following:

All of the data on persons and households served in this APR was pulled from an HMIS	Yes
Some of the data on persons and households served in this APR was pulled from an HMIS	
None of the data on persons and households served in this APR was pulled from an HMIS	

If all data contained in the HPRP APR was NOT pulled from an HMIS, please explain why below:

(Reasons may include DV agencies using a comparable database, etc.)
