SMOKING ORDINANCE PUBLIC MEETING

Tuesday, Oct. 8 • City Hall - City Council Chambers, 317 College St.

The City Council Public Health Advisory Committee is hosting a public meeting at 7 p.m. Tuesday, Oct. 8, in City Council Chambers to receive public comments on the city's proposed new smoking ordinance.

Proposed changes include eliminating smoking in restaurants and city facilities and restricting smoking in other commercial buildings.

If you are unable to attend the public meeting, comments may be submitted by email through Oct. 18 at smoking@gptx.org or by mail at

City of Grand Prairie, Environmental Quality
PO Box 534045
Grand Prairie, Texas 75053

ARBOR DAY CELEBRATION

Friday, Nov. 1, 6:30 p.m. • Uptown Theater, 120 E. Main St.

Recognizing that the proper time to plant trees in Texas is during the fall, our legislature has changed the official date for Arbor Day to the first Friday in November. Join with the Grand Prairie Parks, Arts & Recreation Department for a ceremony with free trees, industry professionals, the Texas A&M Forest Service Foresters, leaders in the community and a fantastic concert by Vocal Trash.

Bring the whole family because this is family entertainment. This will be Grand Prairie's 30th year as a Tree City USA. For more information call 972-237-8100 or visit GrandFunGP.com.

LUNCH OF HORRORS BENEFITS CHILDREN FIRST

Wednesday, Oct. 30, 11 a.m.-1 p.m. • Pioneer Event Center, 1025 W. Pioneer
For info. call Children First at 972-264-0604.

Oct. 31 Street 'N Treat
Nov. 2 Chili Cook Off
Nov. 9 Fall Fruits and Veggies

HOUSEHOLD HAZ WASTE COLLECTION PROPER STORAGE AND DISPOSAL OF POOL CHEMICALS

Pool chemicals can become a hazard when wetted by a small quantity of water or when they are improperly mixed. Most pool chemicals are intended to be added to large quantities of water. If a small amount of water splashes or drips onto a chemical, it may trigger a strong reaction resulting in a fire or release of toxic vapor. Inadvertent mixing of chemicals may occur due to spillage or leakage. It is essential to ensure chemicals are stored in a cool dry place, containers are in good condition, and that incompatible chemicals are separated from each other.

A safer alternative is to convert your existing pool to a salt water system. Salt water pools are more expensive initially, but less costly to maintain than traditional pools and greatly reduce the amount of hazardous chemicals you have to purchase, store, and handle.

Unwanted pool chemicals can be disposed of at our next household hazardous waste collection events on Saturday, Oct. 5, and Nov. 16, from 9 a.m. to 11 a.m. at the Development Center, 206 West Church Street (next to City Hall).

We will accept household and automotive batteries, pharmaceuticals, motor oil, cooking oil, paint, aerosol cans, fluorescent bulbs, and household, landscape, and pool chemicals. We will not accept explosives, gas cylinders, fireworks, medical waste, radioactive materials, or municipal trash. No commercial waste will be accepted.

Registration is required. Please call 972-237-8055 or go online to www.gptx.org/WQ/HHW to register.

KEEP GRASS CLIPPINGS OUT OF STORM DRAINS

Please note that it is illegal to sweep or blow grass clippings into the street and hence the city storm drains. The city code specifically states that it is unlawful to allow any grass clippings, leaves, or debris to collect on any curb, gutter, storm inlet, storm drain, or watercourse. The clippings and debris can clog storm drains causing street flooding and environmental issues in our waterways.

HEARTWORM DETECTION AND PREVENTION

Heartworm disease is a potentially fatal condition caused by parasitic worms living in the heart and pulmonary arteries of dogs and other mammals. The disease is not spread directly from dog to dog, but it is spread by mosquitoes. When a mosquito bites an animal infected with heartworms, they take in the animal's blood and eventually spread the disease by biting another animal. If you suspect your dog or cat may have heartworms, seek the advice of a qualified veterinarian immediately. With prompt detection, needless suffering can be prevented. Consult your veterinarian for an appropriate prevention program for your pet.

Sunday, Oct. 20: 1-5 p.m. Open to the general public. Half price day!

For more information, call 972-237-5700.

NEW TECHNOLOGY KILLS MOSQUITOES

In July 2013, the city of Grand Prairie purchased a revolutionary tool, that kills the mosquito larvae or renders them flightless.

The Larvasonic emits sound waves into pools of stagnant water. The sound waves resonate at the frequency of mosquito larvae internal air volume, causing the larvae to burst and be killed or left flightless.

The city of Grand Prairie is using aerial photos to find vacant and un-kempt swimming pools and backed-up drainage ditches in which mosquitoes are likely breeding. They then travel to the site, apply a larvicide and send sound waves into the pool with the Larvasonic.

For more information about the Larvasonic, or to report a stagnant pool or drainage ditch, call 972-237-8550 or visit gptx.org.

FLASHING YELLOW LEFT TURN ARROW SIGNALS

Flashing yellow left turn arrow signals are coming to Grand Prairie by early October. The green arrow provides a protected left turn from oncoming traffic while the flashing yellow arrow indicates left-turning traffic must first yield to oncoming traffic and pedestrians before turning. The steady yellow arrow and steady red arrow work the same as they always have.

Drivers will see one of the following indications as they approach a signal with a flashing yellow left-turn arrow display:

- Steady Red Arrow –** Drivers turning left must stop and wait.
- Steady Yellow Arrow –** Drivers are warned the left-turn signal is about to turn red. Do not enter the intersection if you can stop safely. Vehicles in the intersection should complete their turn.
- Flashing Yellow Arrow –** Drivers are allowed to turn left after yielding to oncoming traffic and pedestrians. (Oncoming traffic has a green light.) Drivers must determine if there is an adequate gap before turning!
- Steady Green Arrow –** Proceed with left turn; drivers making a left turn have the right-of-way. This sequence may be skipped if no left-turning vehicles are detected by the signal system.

For more information, call the city of Grand Prairie Transportation Department at 972-237-8139 or email skarimi@gptx.org.

PARANORMAL AUTHOR VISITS AT MAIN LIBRARY

The Main Library, 901 Conover Dr., will feature paranormal author visits this Halloween season:

- **Monday, Oct. 28 at 7 p.m.** - Rita Cook, author of the books *Haunted Fort Worth*, *Haunted Dallas* and many others.
