**WEST NILE VIRUS POSITIVE MOSQUITO SAMPLE REPORTED  
GRAND PRAIRIE TO GROUND SPRAY WEDNESDAY AND FRIDAY**

GRAND PRAIRIE—The City of Grand Prairie reports one West Nile Virus positive mosquito sample and will ground spray the following area for two nights on Wednesday, July 3, and Friday, July 5, depending on weather conditions, starting at 9 p.m. This area is bound by Woodford Cove Street and Thousand Oaks Court on the north, N Belt Line Road on the east, E Shady Grove Road on the south, and S Gilbert Road on the west.

Residents in this area are advised to stay indoors, keep pets inside, and cover fish ponds during those times. Spraying will be rescheduled if wind speeds are above 10 mph or in the event of rain. A map of this area is available at [www.gptx.org](http://www.gptx.org).

City of Grand Prairie residents can sign up with AlertGP to receive emergency notifications, including West Nile spraying at [www.gptx.org/AlertGP](http://www.gptx.org/AlertGP).

The City of Grand Prairie conducts regular tests on mosquito samples throughout the city as part of its West Nile Virus surveillance program. For more information on vector control in Grand Prairie, please visit: [www.gptx.org/FighttheBite](http://www.gptx.org/FighttheBite).
