

**CITY OF GRAND PRAIRIE
STORMWATER POLLUTION PREVENTION PLAN (SWP3)
REQUIREMENTS FOR SUBMITTAL**

Prior to ANY earth disturbing activities, the following conditions need to be addressed and accepted through the City of Grand Prairie Stormwater Department:

1. A fully executed SWP3 will be submitted for review and acceptance through the Stormwater Department. Fully executed means all signatures will be required with the submittal and authorized in accordance with the 30 Texas Administrative Code (TAC) Subchapters 305.44 & 305.128. The owner of the project and the operator (contractor) hired by the owner are the required signatures needed for a fully executed SWP3.
2. Land disturbing activities that equal one (1) acre and less than five (5) acres are required by the TPDES Construction General Permit and the City of Grand Prairie (MS4) to submit a SWP3. A signed Small Construction Site Notice from the owner and the operator (contractor) of the project site will also need to be included with the SWP3 submittal. The conditions described in item 1 (above) apply to all SWP3 submittals.
3. Land disturbing activities that equal five (5) acres or more or included in a larger project or common plan of development that equals five (5) or more acres are required by the TPDES Construction General Permit to submit a SWP3 to the City (MS4) with Notice of Intent (NOI) and Construction Site Notice provided by the Primary Operator (Contractor) as defined in the TPDES Construction General Permit as having Day to Day operational control over the site. A Secondary Operator, generally the Developer/Owner, defined as having control over Construction Plans and Specifications and meets the definition guidelines in accordance with the TPDES Construction General Permit, can or should fall under the Primary Operators NOI and sign the Secondary Operator Construction Site Notice.

Submitting Requirements: Please submit the fully executed SWP3 electronically (via email or link) to the City of Grand Prairie Stormwater Department at the email address listed below. The SWP3 shall include at a minimum the Erosion Control Plan and Landscaping Plans, as well as ALL the TPDES Construction General Permit requirements. Additional questions or comments should be directed to the contact information below.

Notice of Termination (NOT) Required

Each operator that has submitted a Notice of Intent (NOI) for authorization under the construction general permit must apply to terminate that authorization. The Notice of Termination (NOT) must be filed through the TCEQ, and a copy of the NOT provided to the MS4 receiving the discharge (Grand Prairie), within 30 days after any of the following conditions are met:

1. Final stabilization has been achieved and meets the conditions of 80% coverage with no large bare areas, on all portions of the site that are the responsibility of the permittee.
2. A transfer of operational control has occurred, or
3. The operator has obtained alternative authorization under an individual TPDES permit or alternative TPDES general permit.
4. Small construction sites and secondary operators that fall under the provisions of the construction general permit, complete the applicable portion of the site notice related to removal of the site notice, and submit a copy of the completed site notice to the operator of the MS4 (City).
