

AN ORDINANCE AMENDING ORDINANCE NO. 2499, SAME BEING AN AMENDMENT TO THE ZONING MAP; SAID ZONING MAP AND ORDINANCE PASSED ON JANUARY 27, 1971, AND RECORDED IN BOOK 8, PAGES 405 TO 509 OF THE ORDINANCE RECORDS OF THE CITY OF GRAND PRAIRIE, TEXAS; REPEALING ALL ORDINANCES OR PARTS OF ORDINANCES IN CONFLICT HEREWITH; CONTAINING A SAVINGS CLAUSE AND TO BECOME EFFECTIVE UPON ITS PASSAGE AND APPROVAL.

WHEREAS, the owners of the hereinafter described property filed application with the City of Grand Prairie, Texas, petitioning an Amendment of Ordinance No. 2499 in order to change the site plan and requirements thereof.

WHEREAS, the Zoning Commission of Grand Prairie, Texas, held a public hearing on said application on February 11, 1980.

WHEREAS, after consideration of said application, the Zoning Commission of the City of Grand Prairie, Texas, voted unanimously to recommend to the City Council of Grand Prairie, Texas, that Ordinance No. 2499 be amended.

WHEREAS, subsequent to the public hearing of the Zoning Commission, Notice was given of a further public hearing to be held by the City Council of the City of Grand Prairie, Texas, in the Municipal Building at 7:30 o'clock p.m. on February 12, 1980, to consider -the advisability of amending Ordinance No. 2499 as recommended by the Zoning Commission.

WHEREAS, all citizens and parties at interest have been given an opportunity to be heard on the matter of the proposed amendment, and the City Council of the City of Grand Prairie, Texas, being informed as to the location and nature of the property, as well as the nature and usability of surrounding property, does consider and find that this amendatory Ordinance should be enacted since its provisions are in the public interest and will promote the health, safety and welfare of the community.

WHEREAS, it is specifically found that the width and condition of the streets, drainage and other public improvements are not adequate to serve a development of the size and nature requested by the applicant herein; and

WHEREAS, the applicant has agreed to make such improvements at his expense and donate such right-of-way as necessary to adequately serve this development.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GRAND PRAIRIE TEXAS:

That Ordinance No. 2499 of the City of Grand Prairie is hereby altered and amended in the following respects and the Use District Classification of the following properties are changed to the classifications as shown below.

IV.

All requirements included in this ordinance are intended to apply to the applicable tracts of land covered under Zoning Case # 731007 (as amended) and in total encompassing previously described 980 acres. Inasmuch as this planned unit development covers thirteen different categories of usage, the tract numbers contained in this ordinance are defined the same as those shown on the attached Land Use Map which is incorporated herein by reference as a specific part of the ordinance.

V.

GENERAL REQUIREMENTS AND STIPULATIONS

All proposed uses are subject to the approval of site plan or plans by the City Council after recommendations by the Planning and Zoning Commission and prior to the issuance of a building

permit or occupancy certificate on the premises. With the exception of Areas 8 and 12, the site plan shall include plans for

grading, drainage, points of access, driveway locations and

widths, building setbacks, building areas, service areas, parking areas, curbs, sidewalks, internal circulation, open space planting! recreational areas, street rights-of-way, utility easement loca

tions, necessary retaining walls, common areas, lot lines, minimum front, side and rear setbacks and the location and height of all

signs.

Development of any adjacent land owned by the applicant shall also be shown on the site plan and such plan along with building construction plans shall be subject to review an approval of the City Council before any site grading, improvement or construction is undertaken.

No use shall be located or operated in any district which involves the admission of odorous material, smoke or particulate matter or noise.

Where a variety of land uses are proposed on a single tract of land, the site plan shall delineate the area proposed for each use.

All screening walls, landscaping plantings, driveways and parking surfaces shall be maintained in an orderly condition and no lighting, illuminated signs or other display devices shall be located or arranged to interfere with adjacent development and vehicular traffic on adjacent streets.

Site plans may be approved in whole or in part for one or several owners provided the overall arrangements of streets, land uses, utilities and parking requirements applying to the entire tract are coordinated with and understood by the various owners. If partial approval is requested, factors influencing the development of the entire tract such as accesses, off-street parking and circulation must be provided for and considered by the partial plan.

All rights-of-way shall be dedicated to the full width provided by the City of Grand Prairie and all public improvements shall be constructed in accordance with the subdivision regulations outlined in the Grand Prairie Code of Ordinances.

SPECIAL REQUIREMENTS AND STIPULATIONS

FOR TRACTS 8 AND 12

The Special Requirements and Stipulations are presently and shall continue to apply and govern the proposed development of Areas 8 and 12 and shall consist of the following:

(a) for the purposes used herein, the term "Phase One" shall mean the initial phase of development for that portion of Areas 8 and/or 12 on which the Applicant shall first obtain final plat approval. The term "Subsequent Phase" shall mean any additional phase of development for those portions of Areas 8 and/or 12 on which the Applicant obtains final plat approval. The total of Phase One shall consist of not less a minimum of 200 lots which shall be of the following dimensions; together with single family dwellings to be constructed thereon containing the following square footage:

Percentage of
Phase One Lots

Minimum
Lot Dimensions

Minimum
Square Footage
Per Dwelling

18%	701 x 1101	1600 sq. ft.
82%	62' x 110' 10"	1400 sq. ft.

to 1599 sq. ft.

provided however, that when development is commenced in that portion of Area 12 that is south of the existing easement for Texas Electric Service Company, then the Applicant will alter its lot size from 621 x 1101 to 62' x 1201.

PAGE 10

The applicant will not be restricted to any plan of development requiring a proportional placement of the proposed lots between Areas 8 and 12 nor will the Applicant be restricted to building a 1600 sq. ft. dwelling on a 701 x 1101 lot or a 1400 sq. ft. to 1599 sq. ft. on a 621 x 1101 lot or vice versa, but may locate between the two Areas the number of lots in their respective dimensions and containing dwellings of such square footage as the Applicant in its discretion shall deem advisable. Additionally, the two hundred (200) lot minimum may be increased by such number of additional lots as the applicant deems advisable

(b) All Subsequent Phases of development shall consist of lots with the minimum dimensions of 621 x 1101 provided, however, that during any phase of development subsequent to Phase I, if any development is commenced in Area 12 that is south of the existing easements for Texas Electric Service Company and for Texas-Power and Light Company, then the Applicant may alter its lot size from 621 x 1101 to 621 x 1201.

The square footage for all dwellings to be constructed during Phase I and any subsequent phases shall, once construction is completed, be of the following proportions:

10%	1600 sq. ft. +
75%	1400 sq. ft. to 1599 sq. ft.
15%	1250 sq. ft. to 1399 sq. ft.

provided however, that in the event the total number of dwellings to be constructed in the 1250 sq. ft. to 1399 sq. ft. category does not equal fifteen percent (15.0%) of the total number of dwellings for all phases, then the Applicant may, at its discretion, increase the percentage of either of or both of the remaining categories as an offset to this deficiency.

(c) Any dwelling constructed in Phase I or any subsequent phase shall have

a minimum masonry coverage of seventy-five percent (75%) of the exterior of the first story, excluding therefrom all doors (including garage doors), all trim and all windows.

(d) The minimum width of sideyards for any lot in Areas 8 and 12 shall be five feet (51).

(e) The City of Grand Prairie will participate in the cost of any street installations (including all engineering costs covering design, layout and construction supervision) up to fifty percent (50%) of the total cost, for any street installed adjacent to the Flood Plain Area in Area 8. Standard street width (including curbs and gutters) for any such street and all other streets to be installed in Areas 8 and 12, (except Great Southwest Parkway, Polo Road and Garden Road) shall be twenty-eight feet (281). If the City of Grand Prairie requires the Applicant to install any street with a width in excess of twenty-eight feet (281), then the City shall reimburse the Applicant for the increase of installation costs attributable to that portion of the street which exceeds twenty-eight feet. In the event the City of Grand Prairie is unable to participate in the cost of any street installation due to the unavailability of funds for such purpose, then the applicant shall be permitted to escrow with the City funds in an amount equal to its pro rata share of the total cost for the installation until such time as 'the City shall have the necessary funds available and the street can be installed in its entirety. In the event there is an escrow of funds pursuant to the foregoing sentence, the Applicant shall be permitted to proceed with its contemplated development activities.

PAGE NO. 11

With respect to the installation of the streets described as Great Southwest Parkway, Polo Road and Carden Road, in Areas 8 and 12, the applicant shall be obligated to complete installation of these streets (or escrow their pro rata share of the cost of the street installation) only to the extent they are adjacent to a phase currently being developed by the applicant. In no instance shall the applicant be obligated to undertake installation of these streets to their fully contemplated length without the concurrent development of the contiguous phase to be benefited by said installation.

(f) Development by the Applicant of any of the areas referred to herein will create no responsibility or obligation on the Applicant to aid in the construction of or contribute funds for the construction of any bridge or any form of elevated roadway or any approach thereto as such may be constructed with respect to the Flood Plains Area described herein and shown on the Land Use Map attached hereto.

(g) Water Mains and sewer lines for Areas 8 and 12 shall be installed by the Applicant as required by the City of Grand Prairie up through 1211 in size at the expense of the Applicant. If mains larger than 12" are required by the City, the difference in cost (including, but not limited to the incremental increase in installation costs) between a 1211 main and the required size will be paid by the City promptly upon satisfactory completion of said mains and lines.

(h) At the request of the Applicant or others, the City shall, promptly upon completion pay its pro rata share' of the cost (including, but not limited to the incremental increase in installation costs) of the installation of a twenty-four inch (2411) water main which shall extend from a tie-in point on the Interstate Highway 20 **frontage road** (said tie-in point being approximately 2200 linear feet west of Matthew Road), to a tie-in point in the right-of-way of Great Southwest Parkway at the north boundary of Area 8.

(i) The City shall accept a dedication from the Applicant of its proportional share of the 80 Acre Flood Plain in lieu of any additional park and recreational land dedication or cash contribution.

(j) At the request of the Applicant, the City shall abandon the existing roadway known as the Martin-Barnes Road at the west boundary of Area 8 and shall assist the Applicant, if necessary, in obtaining the abandonment of the said Martin-Barnes Road by Tarrant County.

(k) In the event any lot of Phase I or any Subsequent Phase shall exceed 621 x 120', then the Applicant may, at its discretion, install an alley at the rear of said lot in conformity with the requirements of the city of Grand Prairie; one-half (1/2) the width of said alley shall be an easement on the adjacent lot.

(l) All utilities shall go underground except major transmission line along thoroughfare.

(m) Uniform screening shall be installed along both sides of Great Southwest Parkway.
