
STOP!

A POEM BY MIA OLIVIA MEDINA

Hey there!

Do you want to **STOP** pollution?

Do you want to **STOP** black smoke in the air?

From Cars? From Factories? From Coal Power Plants?

You can **START** by **STOPPING!**

STOP using gas powered cars.

STOP polluting the air.

Don't ruin the Earth!

So, **STOP, STOP, STOP!**

Instead of fuel burning cars...

We can use electric cars, we can use bikes or you can walk.

Let us plant trees, let us recycle!

Let us all come together and take care of our Earth!

Let's protect the Earth...

So let's **START, START, START!**
