PUBLIC HEARING AGENDA Item #3 – SU200602/S200602 - Specific Use Permit/Site Plan - 360 Car Spa (Commissioner Fisher/City Council District 1). Chief City Planner Savannah Ware presented the case report and gave a Power Point presentation for a Specific Use Permit for a Car Wash within a Commercial zoning district. Lot 7, Block 100, Dalworth Park Addition, City of Grand Prairie, Dallas County, Texas, zoned C, within Central Business District No. 1, and addressed as 2125 Galveston St. The agent is Andres Barragan, the applicant is Jose Artehga, and the owner is Triple B A/C Services.

Ms. Ware stated the applicant intends to operate a Car Wash out of an existing site. The site includes a 2,975 sq. ft. building, a drive that runs parallel along the building that connects a driveway at the north of the site and a driveway at the south of the site, and a parking area. The site includes six parking spaces. The applicant will be able to accommodate three cars inside the garage at a time. Customers will park their car in the designated space in front of the building. After the customer has checked in, an employee will drive the car to the rear of the site and park the vehicle in a designated space or drive it inside the building to begin the car wash. The applicant will have a small waiting area in the front office for customers. The Unified Development Code requires that auto-related businesses provide a minimum of six parking spaces and this site provides six. Two of the parking spaces are designated for employees, four spaces are for customers, and the building has space for three cars. This means that the site can reasonably accommodate seven customer cars at a time. The UDC requires that areas reserved for refuse storage be screened by a solid non-transparent masonry wall. The applicant is proposing to use a rollaway container instead.

Ms. Ware stated the Development Review Committee recommends approval with the following conditions:

1. Using City right-of-way for the parking or queuing of vehicles is prohibited.
2. The front parking space shall be designated for customer car drop-off. An employee shall immediately move the car to the rear of the site so that this space is available for the next customer.
3. Operations must comply with the City of Grand Prairie's Auto Related Businesses ordinance.
4. Operations must comply with Environmental Services standards for commercial washing businesses, including installation of a grit trap.
5. The applicant shall paint arrows on the drive to indicate that it is one-way and install signage on the rear of the building to prevent drivers from driving the wrong way.

PLANNING AND ZONING COMMISSION MINUTES, JUNE 8, 2020

6. The applicant must obtain approval from Republic Waste Services for a rollaway garbage container.
7. The applicant shall continue commercial garbage collection service and provide evidence of continued service upon the City's request.

Chairperson Spare ask if the parking area was pave. Ms. Ware replied yes.

Commissioner Smith said she has never heard of a Car Spa before, and asked if there is a need for car wash at this location. Ms. Ware stated there is currently a similar type of car wash on Main Street.

Commissioner Moser notice the owner is Triple B A/C Services and asked if the owner was present to speak.

Commissioner Perez ask how does the car wash on Main Street handle the traffic. Ms. Ware stated the car wash on Main Street is an associated use to the convenience store/gas station, she is not aware of an issue at this location.

Chairperson Spare stated there were no more questions for staff, opened the public hearing, and called for individuals wishing to speak on this item.

Andres Barrangan, 3639 Canada Drive, Dallas, TX was present representing the case and the property owner.

Chairperson Spare ask how many cars do they plan on washing. Mr. Barrangan said there would be no more than three vehicles at time.

Commissioner Fisher said he would like to make sure the applicant and owner understand the conditions set forth by staff, and the number of employees onsite, we do not want to see cars park along the street, and asked how many car washes does the owner of this property have. Mr. Barrangan stated they are aware of staff's recommendation and conditions, they would have two to three employees onsite and this would be their first car wash in the city, their concept comes from another car wash in New York.

Chairperson Spare said they are showing only two employee parking spaces, and asked if the owner would also be onsite at all times. Mr. Barrangan stated not all of the employee would be parking onsite some would be drop off or live within the neighborhood the owner would always be onsite to make sure the business is in compliance.

Commissioner Moser stated he would like to see more employee parking.

PLANNING AND ZONING COMMISSION MINUTES, JUNE 8, 2020

Commissioner Smith stated they could consider an RSVP or by appointment only in order to make sure, the parking does not become a problem. Mr. Barrangan stated they could work by appointments only.

There being no further discussion on the case commissioner Fisher moved to close the public hearing and approve case SU200602/S200602 per staff's recommendations and conditions. The action and vote recorded as follows:

Motion: Fisher

Second: Connor

Ayes: Coleman, Connor, Fisher, Hedin, Landrum, Moser, Perez, Smith, Spare

Analysis

SUMMARY:

Site Plan for a 202,175 sq. ft. warehouse and a 252,555 sq. ft. warehouse on one lot. 42.78 acres out of the John C. Read Survey, Abstract 1183, City of Grand Prairie, Dallas County, Texas, zoned Light Industrial (LI) District, within the SH-161 Corridor Overlay District, generally located east of SH 161 and south of W Rock Island Rd.

PURPOSE OF REQUEST:

The applicant intends to construct two warehouse buildings on 42.78 acres. Site Plan approval by City Council is required for any project involving industrial use or that is located within a Corridor Overlay District. Development at this location requires City Council approval of a Site Plan because the property is intended for industrial uses with buildings exceeding 50,000 square feet.

The purpose of site plan approval is to ensure that development meets requirements in the Unified Development Code (UDC), provides adequate circulation, and uses quality site planning techniques. The UDC identifies criteria for evaluating proposed developments. Criteria include density and dimensional standards, landscaping and screening requirements, and architectural design for special districts.

In addition, UDC’s Appendix X, Industrial Development Standards addresses potential adverse environmental, visual, and truck traffic associated with large (50K-plus) warehouse, outside storage, distribution-logistical related developments exceeding 5 acres in size.

ADJACENT LAND USES:

The following table summarizes the zoning designation and existing use for the surrounding properties.

Table 1: Adjacent Zoning and Land Uses

Direction	Zoning	Existing Use
North	LI	Undeveloped
South	LI	Industrial Uses
West	(SH 161) PD-389	Undeveloped
East	LI	Undeveloped (Bear Creek)

PROPOSED USE CHARACTERISTICS AND FUNCTION:

The proposal includes two rear-loaded office/warehouse-buildings along the State Highway 161 Corridor. The buildings are speculative and will be developed without specific tenants.

- Building A is 202,175 sq. ft. The site will be accessible from two commercial drives off northbound State Highway 161 Service Road and includes a south-facing truck dock with twenty-two overhead doors.
- Building B is 252,555 sq. ft. The site will be accessible from three commercial drives with two off of northbound State Highway 161 Service Road one from east bound Rock Island Road. Building B proposes a south-facing truck dock with fifty-one overhead doors.

ZONING REQUIREMENTS:

Density and Dimensional Requirements

Development is subject to the LI and Appendix X Industrial Development Standards in the UDC. - Zoning Analysis Tables evaluates the density and dimensional standards of the proposed development. The proposal meets the density and dimensional requirements.

The site shall provide 1.5 acres of open space, with 1,452 linear s.f. of walking trails with 24 seats and 9,112 s.f of garden space.

Building Materials and Design

Industrial buildings greater than 50,000 sq. ft. are subject to the requirements in Appendix X of the UDC. Appendix X requires that primary facades include at least three design elements and secondary facades include at least two design elements. - Zoning Analysis Tables evaluates the design elements for each building. The proposed building elevations meet Appendix X requirements.

Both buildings A&B consists of 100% exterior masonry construction utilizing textured concrete tilt-wall panels of varying finishes and colors in compliance with required architectural articulation requirements. The construction styles consist of two accent materials along the vertical surface. 18” Cornice projection shall extend along the entire length of the primary facades. The primary facade shall provide accent lighting minimum 50% of its length.

Analysis
SUMMARY:

Site Plan for Hunter Ferrell Logistics Park, a development with two warehouse buildings totaling 550,518 sq. ft. on 33.44 acres. Tracts 14.2 and 27, Isreal Jennings Survey, Abstract No. 679, City of Grand Prairie, Dallas County, Texas, zoned Light Industrial, and addressed as 2400 and 2701 W Hunter Ferrell Rd.

PURPOSE OF REQUEST:

The applicant intends to construct two warehouse buildings on 33 acres. Site Plan approval by City Council is required for any project involving industrial use. Development at this location requires City Council approval of a Site Plan because the property is intended for industrial use.

The purpose of site plan approval is to ensure that development meets requirements in the Unified Development Code (UDC), provides adequate circulation, and uses quality site planning techniques. The UDC identifies criteria for evaluating proposed developments. Criteria include density and dimensional standards, landscaping and screening requirements, and architectural design for special districts.

ADJACENT LAND USES:

The following table summarizes the zoning designation and existing use for the surrounding properties.

Table 1: Adjacent Zoning and Land Uses

Direction	Zoning	Existing Use
North (Site A)	City of Irving	Mobile Home Park
North (Site B)	Light Industrial; PD-9	Truck Parking, Auto Related Use
South	Light Industrial	Undeveloped, Floodway
West	Light Industrial	Lone Star Park Trailhead, Undeveloped
East	Light Industrial	Auto Related Use, Undeveloped

PROPOSED USE CHARACTERISTICS AND FUNCTION:

The applicant is proposing two development scenarios: the construction of Building A on 13.2 acres or the construction of Building A and Building B on 33 acres.

Building A Site Plan

The 13.2-acre site is accessible by two points on W Hunter Ferrell Rd. The proposed warehouse building is 252,919 sq. ft. and has a loading dock on the south side of the building with 54 dock doors. The site includes 160 parking spaces and 60 trailer parking spaces.

Building B Site Plan

The 19.82-acre site is accessible from W Hunter Ferrell Rd via a shared drive. The proposed warehouse building is 166,642 sq. ft. and has a loading dock on the north side of the building with 31 dock doors. The site includes 159 parking spaces and 50 trailer parking spaces.

Site Access and Traffic Impact

The right-of-way for Hunter Ferrell Rd is within the City of Irving. This means that driveway widths and spacing, median openings, deceleration lanes, and pedestrian/bicycle facilities must be approved by the City of Irving. The proposed access points do not align with existing median openings; any median modifications must also be approved by the City of Irving.

ZONING REQUIREMENTS:

Density and Dimensional Requirements

Development is subject to the LI standards in the UDC. The tables below evaluate the density and dimensional standards of the proposed development. The proposal meets the density and dimensional requirements with the exception of minimum lot width for Site B.

--------------------	----------------------	----------------------	-----

Building Materials and Design

Industrial buildings greater than 50,000 sq. ft. are subject to the requirements in Appendix X of the UDC. Appendix X requires that primary facades include at least three design elements and secondary facades include at least two design elements. The proposed building elevations meet the design requirements.

VARIANCES:

City Council may approve variances to Appendix X if the applicant demonstrates that the proposal meets the intent of the ordinance and that the alternative design or measure provides an equal or greater level of quality and standard of development as mandated by the regulations. As a part of this Site Plan, the applicant is requesting the variances listed below.

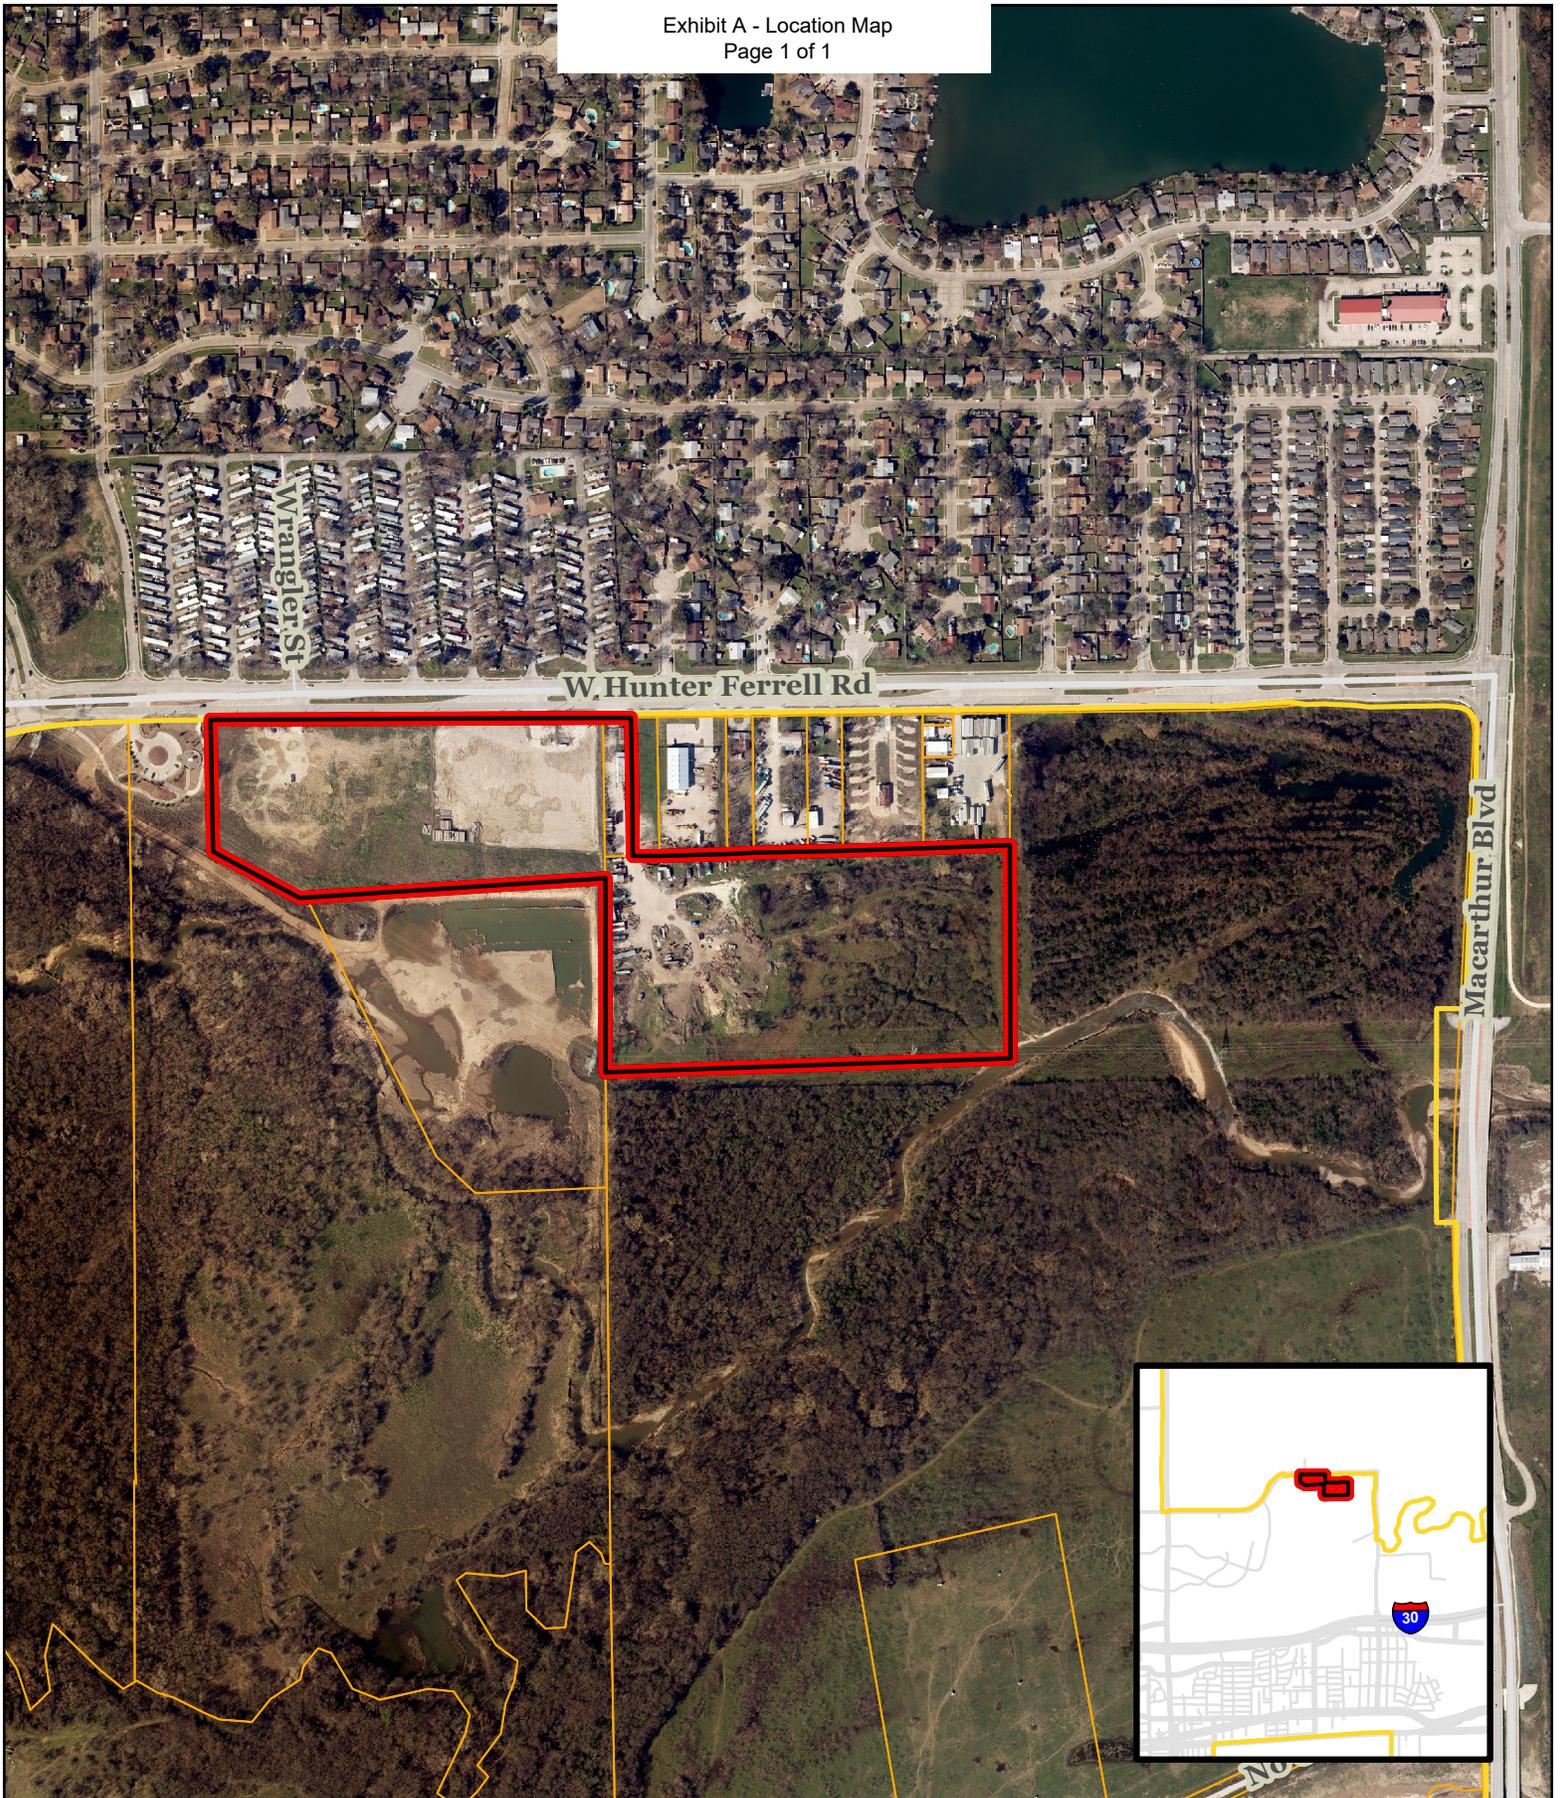

1. Truck Docks Location for Building B - Truck docks are prohibited along any primary facade.
2. Tree Preservation Requirements - Appendix X requires that developers submit a tree survey and preserves a minimum of 30% of the total existing caliper inches. The applicant has not submitted a tree survey.

3. Minimum Lot Width for Site B - Site B does not meet the minimum required lot width.

RECOMMENDATION:

The Development Review Committee (DRC) recommends approval with the following conditions:

1. The applicant shall coordinate with the Parks Department to connect the proposed walking trails to the existing trail west of the property. The applicant shall construct this connection in conjunction with the proposed trail and activation feature.
2. The applicant shall provide an additional row of street trees closer to Hunter Ferrell Rd to create shade along the existing trail. These trees will count towards the required number of trees. The proposed number of trees is 28 less than what is required. The applicant shall coordinate with the Parks Department and City of Irving on the placement of trees along the trail.

Analysis

SUMMARY:

Specific Use Permit for Beer/Wine Sales in a proposed Convenience Store with Gasoline Sales. A portion of Tracts 2C05 and 2C05A, John W Harwood Survey, Abstract No. 661, City of Grand Prairie, Tarrant County, Texas, zoned PD-130, and generally located at the northwest corner of W Camp Wisdom Rd and Lynn Rd.

PURPOSE OF REQUEST:

This request is for a Specific Use Permit to allow Beer/Wine Sales in a proposed Convenience Store. PD-130 states that additional uses shall be allowed, as prescribed in Section B-100 of the Comprehensive Zoning Ordinance for the General Retail District, upon approval of a Specific Use Permit. Section B-100 shows that the Sale of Alcoholic Beverages for Off-Premise Consumption requires a Specific Use Permit.

The purpose of the Specific Use Permit process is to identify those uses which might be appropriate within a zoning district, but due to either their location, functional or operational nature, could have potentially negative impact upon surrounding properties; and to provide for a procedure whereby such uses might be permitted by further restricting or conditioning them so as to eliminate such probable negative impacts.

ADJACENT LAND USES:

The following table summarizes the zoning designation and existing use for the surrounding properties.

Table 1: Zoning and Land Use

Direction	Zoning	Existing Use
North	PD-130	Single-Family Residences
East	None	Lynn Road
South	None	West Camp Wisdom Road
West	PD-130	Single-Family Residences

HISTORY:

- December 6, 1983: City Council approved a zoning change (Case Number 830803), creating a Planned Development District for General Retail, Single Family Detached Residential, Single Family Attached Residential, and Multi-Family Residential uses.
- January 21, 2020: City Council approved a Site Plan (Case Number S200101) for Convenience Store with Gasoline Sales and Retail uses. The Site Plan includes a 9,919 sq. ft. building separated into a 4,275 sq. ft. convenience store with a drive through and four 1,411 sq. ft. retail tenant spaces, two way circulation, dumpster enclosure, and 120 parking spaces.

RECOMMENDATION:

Residents from the adjacent neighborhood raised concerns about traffic, noise, and lighting during the Planning and Zoning Commission meeting and City Council meeting for Case Number S200101. Approval of this Specific Use Permit will increase the items available for purchase at the proposed Convenience Store. This could increase the number of trips generated by the Convenience Store and might also increase the negative impacts generated by this use.

City Council may establish conditions of operation, location, arrangement and construction of any authorized special use. City Council may impose such development standards and safeguards as conditions warrant for the welfare and protection of adjacent properties and citizenry.

Given the proximity of this location to an existing neighborhood, citizens’ concerns about traffic, noise, and lighting, and the possibility that adding this use could exacerbate potential negative impacts of the proposed development, staff recommends the following conditions:

- The applicant shall construct the required masonry screening wall with Phase 1;
- The masonry screening wall shall be a minimum of eight feet in height;

- The applicant shall provide a landscape buffer along the screening wall that is at least 15 feet wide; and
- The applicant shall plant native shade trees, a minimum of three inches in caliper, every 15 feet in the landscape buffer.
