Proper notification was done in accordance with the statutes and ordinances.

The decision of the City building or administrative official to deny the permit or construction was in error, and the permit should be granted.

A variance, if granted, is not contrary to the public interest, and, due to special conditions, a literal enforcement of the ordinance would result in unnecessary hardship, and the granting of the variance would be in the spirit of the ordinances and substantial justice would be done.

The variance or exception will not substantially or permanently injure the appropriate use of adjacent property in the same district.

The variance or exception will not adversely affect the health, safety, or general welfare of the public.

The variance or exception will not be contrary to public interest.

The variance or exception will not authorize the operation of a use other than those uses specifically authorized for the district in which the property for which the variance is sought is located.

The variance or exception will be in harmony with the spirit and purpose of the Unified Development Code and all other ordinances of the City.

The variance or exception will not alter the essential character of the district in which is located the property for which the variance is sought.

The variance or exception will not substantially weaken the general purposes of the zoning regulations established for the district in which the property is located;

The plight of the owner of the property for which the variance or exception is sought is due to unique circumstances existing on the property, including, but not limited to, area, shape or slope, and the unique circumstances were not created by the owner of the property, and are not merely financial, and are not due to or the result of general conditions in the district in which the property is located.

_____ The variance or exception is not a self-created hardship.
