

Emergency Response Guidelines for Filing a Gas Well Permit Application

All applications filed with the City of Grand Prairie must include an Emergency Response Plan, sometimes called a Hazard Mitigation Management Plan. The essential elements of an ERP include the following:

1. Objectives of the Plan
2. Essential Personnel In a Response Action and Contact Information
3. Description of Response Activities
4. Classification of Events
5. Training of Personnel
6. Mobilization of Equipment
7. Firefighting Resources and Equipment
8. Event Management/Personnel Responsibility for the following:
 - a. Surface Blowouts
 - b. Underground Blowouts
 - c. Relief Wells
 - d. Other Foreseen Events
9. Action Plan/Personnel Responsibility for the following:
 - a. Shut-In
 - b. Trapped Pressure
 - c. Leak Sealing
 - d. Remote Controls
10. Evacuation and Notification Procedures
11. Vendor List and Contact Information for Equipment Needs in an emergency.
