

## Fire Hydrant Painting

Keep Grand Prairie Beautiful has partnered with Water Services to provide fire hydrant painting for the City of Grand Prairie. One project consisting of 10 to 100 fire hydrants may be scheduled per month.

Before

After

### Fire Hydrant Painting Project Process:

1. Volunteers contact KGPB with proposed date and location of project.
2. KGPB will confirm project date and location with volunteers.
3. Volunteers reserve materials at least 1 week before the project and schedule pick up date.
  - o Pick up may be scheduled for 9 a.m. to 4 p.m. Tuesday through Friday or 8 a.m. to 3 p.m. on Saturday. Materials may be collected and returned to 1102 MacArthur Blvd, Grand Prairie.
4. KGPB staff will meet volunteers on site the morning of the project to train volunteers.
5. Volunteers complete project, see **Directions for painting a fire hydrant**, ensure everyone wears proper safety equipment and signs a liability waiver.
6. Properly dispose of used materials. All used materials may be tied in a garbage bag and put in with regular household trash once dry.
7. Return liability waivers and all materials to KGPB at 1102 MacArthur Blvd, Grand Prairie.

	Paint can opener	Yes	No
	Paint stirring stick	Unused only	Used only
	Garbage bags	Unused only	Used only
	Cardboard pieces with 6" hole in center	Unused only	Used only
Up to 15 per 1 gal. paint	Paint brushes	Unused only	Used only
1 gal. per 30 to 40 hydrants	Rust-Oleum v700 System Fire Hydrant Red paint	Yes	No

## Directions for painting a fire hydrant:

- A. Ensure everyone has safety equipment and has signed a liability waiver.
- B. Use a wire bristle brush to remove any peeling paint.
- C. Use a stiff bristle brush to remove any grass and dirt.
- D. Place cardboard around the base of the fire hydrant to prevent getting paint on the grass or sidewalk.
- E. Paint the fire hydrant using **Rust-Oleum V7400 System Fire Hydrant Red**.
- F. **Do not** paint the threads of the front and side caps.
- G. **Do not** paint the grease port on the top (not all hydrants have a grease port).
- H. **Do not** paint the inside of any caps.
- I. Properly dispose of used cardboard, paint stirring stick, and paint brushes. These items may be disposed of with regular household trash once dry.
- J. Return liability waivers and unused/reusable materials.

I (We), \_\_\_\_\_, have read and understand the Fire Hydrant Painting Project Process and the Directions for painting a fire hydrant.
