Water Flow Testing

Water flow testing within the City of Grand Prairie will be performed by the requesting company. Companies will be required to notify Fire Administration of the date and time being requested to conduct the test. During the test, the company will be responsible for any and all damages to the fire hydrant, piping, connections, valves, and surrounding property. The company will also be responsible for proper traffic flow and not creating any hazards on the roadway. ***The company will be required to submit all numbers and calculations obtained to Fire Administration within 24 hours after the test is done.***

This form needs to be signed and returned before the time requested for the test to be conducted. After it is received, permission to conduct the test will be granted.

This signature acknowledges all information and accepts all liability as outlined within this letter:
